

BACK TO SOCCER PLEDGE

ROADMAP TO RECOVERY

The youth soccer industry plays a critical role in protecting our kids and preventing another surge of COVID-19 infections. Because we are committed to the safety and health of our valued members and community, we pledge to:

COMMUNICATE

Clearly and effectively communicate our current policies, procedures and action plan as it evolves.

LISTEN

Additionally follow guidance provided by the CDC, local and state health authorities, and our own industry.

SANITIZE

Ensure our training environment is routinely cleaned. Reduce and disinfect as many "high touch surfaces" as possible.

SCREEN

Use an infrared, no-contact thermometer on each participant prior to participation. Masks may be required for participation.

PARENTAL AGREEMENT

Require every participant has a signed waiver confirming their understanding of and intended adherence to these policies.

AMEND AND ADJUST

Require every player has their own (sanitized) ball and adjust environment to adhere to social distancing mandates, including a max of **12 participants**.
